

Training

Why Train with CMI?

Our instructors have years of industry experience working on real-world projects just like you. We understand the demands of your job and put our experience to work for you in the fields of building design and construction, facilities management, civil engineering, mapping and visualization. Our commitment to providing the best instruction possible has garnered numerous awards from Autodesk, including the Instructor of the Year award for North America.

Whatever your needs may be, we will accommodate your unique requirements. CMI offers standard classroom training, dedicated private training, custom training, onsite training, online training or any combination that meets your needs.

Several Convenient Locations

- Alexandria, Virginia
- Baltimore, Maryland
- Richmond, Virginia
- Washington, DC

Autodesk Authorized Training Center

CMI is an Autodesk Authorized Training Center, a prestigious distinction that is only awarded to an elite few.

Continuing Education

CMI is an AIA/CES registered provider and students are eligible to receive AIA Continuing Education Credits for all of our training courses.

GSA Schedule

All of CMI's training courses are available on our GSA Schedule #GS-35F-0725R.

Qualifications

CMI employs a full-time staff of certified technical experts covering Autodesk products and solutions.

Flexible Delivery Options

We offer several options for delivering education to our clients: public classroom training, customized training, private customer training, onsite training with mobile labs and various virtual options.

Our Guarantee

CMI is proud of the training curriculum it creates and of the overall experience you get when you train with us. However, if you are not 100% satisfied with the course you take, you may attend the same course at no charge, up to six months from the date of the original course, based on seat availability.

CMI is your resource to help you evaluate, select, purchase and implement your design software solutions.

We provide value to the customer...
so the customer values us

Training

CMI offers product-specific training, as well as solution-based training that takes an in-depth look into the software and its specific applications. Our courses range from beginner to advanced. Below are some of the products and solutions for which we provide training.

- Autodesk Inventor
- Autodesk Navisworks
- Autodesk Revit Architecture
- Autodesk Revit MEP
- Autodesk Revit Structure
- BIM for Contractors
- Calculating LEED Credits
- Family Creation
- FM:Systems
- Hydrology and Hydraulics
- Project Management
- Rendering
- Revit for Interior Architects
- Space Planning
- Survey

"I always have a good time and learn something new whenever I take a class at CADD Microsystems. I really took away a lot that will help me in so many ways. You guys have awesome trainers and I'm looking forward to my next class."

Kimberley Brown-Snell
The National Academies

"Excellent course! Very well done with terrific training aids, well spaced class time and breaks, very knowledgeable staff and great facility."
