

*"We provide **value to the customer...**
so the **customer values us**"*

cmi CADD Microsystems, Inc.

CMI is your resource to help you evaluate, select, purchase and implement your design software solutions.

Autodesk
Premier Solutions Provider

Who We Are

CADD Microsystems, Inc. (CMI) is an Autodesk Value Added Reseller and an Autodesk Premier Solutions Provider in Building Architecture, Civil Engineering, Federal Government, and State & Local Government - one of only a handful of Autodesk resellers with this designation. With more than 20 years of experience, CMI is an expert in architectural, engineering, construction, and operations & maintenance software solutions.

Serving Client Needs

We sell products that support numerous industries, and utilize our diverse experience and ability to implement solutions with a mixture of training, consulting and software.

Industries We Support

- Architecture
- Interior Design
- Building Information Modeling (BIM)
- Sustainability / LEED
- Design Visualization
- Construction (general & subcontractors)
- Space and Facilities Management
- Operations & Maintenance
- Mechanical / Electrical / Plumbing
- Fire Protection
- Structure
- Civil Engineering
- Surveying
- GIS
- Public Works
- Manufacturing

Who We Serve

CMI is a trusted adviser for both the public and private sectors. By working closely with federal, state and local government agencies, CMI is the number one Autodesk federal reseller, a distinction it has carried since 1991.

Training

Why Train with CMI

Our instructors have years of industry experience working on real-world projects just like you, and our commitment to providing the best instruction possible has garnered numerous awards, including the Instructor of the Year award for North America.

Authorized Training Center

CMI is an Autodesk Authorized Training Center, a prestigious distinction that is only awarded to an elite few.

Continuing Education

CMI is an AIA/CES registered provider and students are eligible to receive AIA Continuing Education Credits for all of our training classes.

GSA Schedule

All of CMI's training classes are available on GSA Schedule.

Qualifications

CMI employs a full-time staff of certified support engineers covering Autodesk products and solutions.

Flexible Delivery Options

We offer several options for delivering education to our clients: Public classroom training, customized training, private customer training, on site with mobile lab and various virtual options.

What We Do

CMI is staffed with professionals that have years of experience in the various industries we support, and we boast registered architects, professional engineers and LEED accredited professionals. CMI collaborates with customers from needs analysis through implementation, including process consulting, data migration, custom development and training.

Services

Our Philosophy

CMI's approach to consulting services is simple: help customers realize their ideas – and realize them quickly and easily. We provide real-world solutions for projects from 2D design and basic conceptual design to advanced 3D modeling, animation, visualization, data management and project collaboration.

- Standards Development
- BIM Consulting
