REGISTER 

Join CADD Microsystems for our one-day technology conference coming to Baltimore, DC and Richmond! Gain insights into the latest modeling advancements in the AEC industry from the experts, all while networking with your peers in the commercial and public sectors. Learn how to:

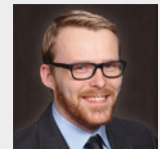

- ✓ Collaborate in a BIM world with Bluebeam
- ✓ Capture current conditions of existing buildings with laser scanning and point cloud data
- ✓ See best practices for modeling existing buildings
- ✓ Optimize your facilities after they have been built
- ✓ Plan, design and visualize infrastructure models
- ✓ And more!

This free event includes breakfast and all the coffee you can drink, and you will receive 4 CEUs for attending.
